* Because the blend price adjusted for location was at or below the Class III price in certain zones in some markets in the East North Central, West North Central, and Pacific regions, handlers elected not to pool an estimated 400 million pounds in June 1995, that normally would have been pooled under these orders. The total estimated amounts of milk not pooled for this reason through the month of June are: for 1995, 1.3 billion pounds; and for 1994, 1.75 billion pounds. ^{1/} End-of-year figure. Remaining annual statistics are for all markets in effect during any part of the year, except for the Michigan Upper Peninsula market, for which all the data were restricted and thus excluded through 1992. ^{2/} Represents changes over the previous year. Percentages computed from unrounded numbers. Data for 1992 have been adjusted to a 365-day basis before computing percent changes. ^{3/} Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1994-95, and for which the data were not affected significantly by marketing area changes. ^{4/} Average or total.

1/ Total packaged disposition, in and out of the marketing area, by regulated handlers. Besides receipts from producers, these dispositions also may include receipts from other Federal order plants and/or receipts from other sources. Due to a change in classification procedures that was effective July 1, 1993, sour cream, yogurt, and eggnog are now reported on a used-to-produce basis. Previously, most orders reported data for these products on a disposition basis.

2/ Plain, flavored, and miscellaneous whole milk products.

3/ Plain, solids added, flavored, and miscellaneous lowfat and skim milk products, and buttermilk.

4/ Light, heavy, and sour cream and cream dips.

5/ In addition to listed fluid milk and cream products, includes eggnog and yogurt.

6/ Represents changes over the previous year. Percentages are based on the data for all markets combined. Data for 1992 are adjusted to a 365-day basis before computing percent changes.

7/ Represents the data for all Federal milk order markets, except for New York-New Jersey. For percent changes based on comparable markets, see tables 15 and 16.

*Due to the unusual price relationships and/or qualification circumstances in some markets in 1990-1994 and 1995, handlers elected not to pool significant volumes of milk that normally would have been pooled under Federal milk orders. Because this milk would have been classified as Class III under the orders, the utilization in butter, cheese, and nonfat dry milk production for these years was affected.

1/ Includes producer milk and other source milk used to produce manufactured dairy products in regulated pool plants as well as milk diverted and shipped to non-order plants for processing. Other source milk at regulated plants includes bulk transfers and diversions from other Federal orders, and receipts from unregulated sources. Some of the data are preliminary and partially estimated.

2/ In addition to listed manufactured products, includes milk, skim milk, and cream used in other manufactured dairy products: e.g. cottage cheese, evaporated milk, condensed milk, dried products, and aerated cream; and milk, skim milk, and cream used in other food and non-food products. The total also includes dumped or spilled milk and plant loss.

3/ Represents changes over the previous year. Percentages are based on the data for all markets combined. These changes are based on pounds of butterfat, except for nonfat dry milk, which are based on pounds of skim milk. Data for 1992 are adjusted to a 365-day basis before computing percent changes.

4/ Represents the data for all Federal milk order markets, except for New York-New Jersey. For percentage changes based on comparable markets, see tables 18 and 19.

1/ In-area sales include total sales in each of the areas by handlers regulated under the respective orders, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handlers' in-area sales are partially estimated.

2/ Plain, flavored, and miscellaneous whole milk products.

3/ Plain, solids added, flavored, and miscellaneous lowfat and skim milk products, and buttermilk.

4/ Represents changes over the previous year. Percentages are based on the same group of markets comparable in both years. Data for 1992 are adjusted to a 365-day basis before computing percent changes.

5/ Adjusted to eliminate variation in data to calendar composition and seasonality.

6/ Represents the data for all Federal milk order markets except for New York-New Jersey.

^{1/} Prices are for 100 pounds of milk of 3.5 percent butterfat content. Prices are listed generally for the major city in the marketing area; see footnotes on pages 40 and 41 for these locations. ^{2/} The fluid differential is the amount added to the Basic Formula Price to determine the Class I price. The Basic Formula Price is the base month Minnesota-Wisconsin price for the second preceding month updated with a product price formula. See Table 27. The fluid differentials shown for New England, New York-New Jersey, and Michigan Upper Peninsula reflect location adjustments. The differentials specified in the orders are: New England - \$2.52, New York-New Jersey - \$2.42; and Michigan Upper Peninsula - \$1.15. ^{3/} Effective July 1, 1995, the Georgia, Alabama-West Florida, New Orleans-Mississippi, Central Arkansas, Greater Louisiana and the former Nashville and Memphis markets were merged to form the Southeast order (order #7). The data for 1994 are for the Georgia market.

FOOTNOTES FOR TABLES 2 AND 3.

1/ Prices are for milk of 3.5 percent butterfat content and for the major city in the marketing area. All averages are weighted.

2/ For those markets which have base-excess plans (see table 21), the prices represent a weighted average of the base and excess prices. For those markets which have multiple component pricing (see table 22), the prices represent the Basic Formula Price plus the weighted average differential price computed under the order.

3/ For the 27 marketing areas where it currently is in effect, this price is applicable to producer milk used to produce nonfat dry milk.

4/ Zone 1 (Boston). Price at 201-210 mile zone: Class I and blend, 72 cents less. Class I and blend price at Hartford, 10 cents less.

5/ New York metropolitan area. Price at 201-210 mile zone: Class I and blend, 72 cents less; Class II and Class III, 8 cents less.

6/ Philadelphia, Baltimore, and Washington, D.C. Price excludes a 6-cent direct delivery differential applicable to milk delivered to the Philadelphia area.

7/ Charlotte.

8/ Bristol, Chattanooga, and Knoxville.

9/ Atlanta.

10/ Zone 2 (Birmingham).

11/ Zone 1 (New Orleans).

12/ Little Rock.

13/ Monroe and Shreveport.

14/ Jacksonville and Tallahassee.

15/ Miami.

16/ Zone II (Marquette).

17/ Individual handler pool. Blend prices are weighted average of all handlers.

18/ Zone 1 (Detroit). Price excludes a 10-cent direct delivery differential applicable to milk delivered to the Detroit metropolitan area.

19/ Cleveland and Pittsburgh.

20/ Zone 3 (Columbus). Class I and blend price at Cincinnati (Zone 4) 7 cents more.

21/ Indianapolis.

22/ Zone 1 (Chicago). Class I and blend price at Milwaukee (Zone 4) 9 cents less.

23/ Peoria.

24/ Base Zone (Alton). Class I and blend price at Carbondale (Southern Zone) and at St. Louis 9 cents more.

25/ Zone 1 (Minneapolis).

26/ Zone 1 (Des Moines). Class I and blend price at Rock Island, Ill., 7 cents less; and at Waterloo, 17 cents less.

27/ Zone 1 (Omaha).

28/ Kansas City and Topeka.

29/ Figures exclude, where applicable, Eastern South Dakota, Black Hills, and Western Colorado; the data used to weight the monthly prices were restricted. The applicable figures are:

Marketing area	Class I		Blend		Class II	Class III	Prod. Diff.
	1995	1994	1995	1994	1995	1995	1995
	-----Dollars-----						Cents
E. S. Dakota	13.39	14.27	12.24	13.06	12.19	11.12	5.9
Black Hills	13.94	14.82	13.43	14.46	12.19	11.12	5.9
W. Colorado	13.89	14.77	13.69	14.52	12.19	11.12	5.9

30/ Zone 1 (Oklahoma City). Class I and blend price at Springfield, Mo., 58 cents less.

31/ Zone 1 (Dallas). Class I and blend price at Houston, 54 cents more.

32/ Denver.

33/ Boise, Idaho.

34/ Salt Lake City, Utah.

35/ Phoenix.

36/ Albuquerque, Santa Fe, and El Paso.

37/ Zone 1 (Seattle and Portland).

38/ Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1994-95, and for which the data were not affected significantly by marketing area changes; all markets are comparable.

39/ Figures exclude, where applicable, Eastern South Dakota, Black Hills, and Western Colorado; the data used to weight the monthly prices were restricted. The applicable figures are:

Marketing area	Class I		Blend		Class II	Class III	Prod. Diff.
	1995	1994	1995	1994	1995	1995	1995
	-----Dollars-----						Cents
E. S. Dakota	12.66	14.49	11.99	12.70	11.46	11.42	6.4
Black Hills	13.21	15.04	12.80	14.10	11.46	11.42	6.4
W. Colorado	13.16	14.99	13.11	14.51	11.46	11.42	6.4

FOOTNOTES FOR TABLES 4 THROUGH 11.

1/ Prices are for milk of 3.5 percent butterfat content and for the major city in the marketing area. See footnotes on pages 40 and 41 for location at which price is reported. All averages are weighted.

2/ Figures exclude, where applicable, Eastern South Dakota, Black Hills, and Western Colorado; the data used to weight the monthly prices are restricted.

3/ Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1994-95, and for which the data were not affected significantly by marketing area changes; all markets are comparable.

4/ The data for these marketing areas are combined in order to mask restricted data. See table 1 for complete marketing area name.

5/ In these marketing areas, milk was not pooled due to unusual price relationships. See "*" on page 4.

FOOTNOTES FOR TABLES 12 THROUGH 19.

1/ In-area sales include total sales in each of the areas by handlers regulated under the respective order, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handlers' in-area sales are partially estimated.

2/ Plain, flavored, and miscellaneous whole milk products.

3/ Plain, fortified, flavored, and miscellaneous lowfat and skim milk products, and buttermilk.

4/ Comparable markets are markets where the orders were in effect the entire period 1994-95, and for which the data were not affected significantly by marketing area changes; all markets are comparable.

5/ Excludes New York-New Jersey.

6/ Figures adjusted to eliminate variation in data due to calendar composition.

7/ The data for this market are estimated.

8/ See table 12 for marketing areas included; excludes New York-New Jersey.

9/ Total packaged disposition, in and out of the marketing area, by regulated handlers. Besides receipts from producers, these dispositions also may include receipts from other Federal order plants and/or receipts from other sources. However, sour cream, yogurt, and eggnog are reported on a used-to-produce basis.

10/ See table 12 for marketing areas included; excludes New York-New Jersey. Percent changes are based on the same groups of comparable markets; see 4/.

11/ Light, heavy, and sour cream, and cream dips.

12/ In addition to listed fluid milk and cream products, includes yogurt and eggnog.

13/ Includes producer milk and other source milk used to produce manufactured dairy products in regulated pool plants, as well as milk diverted and shipped to non-order plants for processing. Other source milk at regulated plants includes bulk transfers and diversions from other Federal orders, and receipts from unregulated sources. Some of the data are preliminary and partially estimated.

14/ In addition to listed manufactured products, includes milk, skim milk, and cream used in other manufactured dairy products, e.g., evaporated milk, condensed milk, dried products, aerated cream, and skim milk equivalent used to fortify fluid milk products; milk, skim milk, and cream used in other food products as well as used in animal feed, dumped or spilled, plant loss, and miscellaneous products.

15/ Percent changes over the previous year are based on the same group of comparable markets--markets where the orders were in effect the entire period, 1994-95, and for which the data were not affected significantly by marketing area changes; all markets are comparable. These changes are based on pounds of butterfat, except for nonfat dry milk which are based on pounds of skim milk.

16/ Restricted.

17/ The marketing areas in which milk was not pooled in April 1994 and 1995 due to unusual price relationships were in these regions. See "*" on page 6.

TABLE 20--PERCENTAGE OF WHOLE MILK EQUIVALENT (MILKFAT BASIS) USED IN THE PRODUCTION OF MANUFACTURED DAIRY PRODUCTS,
IN FEDERAL ORDER MARKETS, JANUARY 1995 TO DATE, WITH COMPARISONS ^{1/}

Manufactured dairy product	January		February		March		April		May		June

Dollars per 100 pounds

1/ This pricing provision was in effect in 38 marketing areas through March 1995. Three separate differentials and Class II prices were computed and are listed according to the group of marketing areas to which each applied. These groups of marketing areas are: Group A: Alabama-West Florida, Black Hills (see 5/), Carolina, Central Arizona, Central Arkansas, Central Illinois, Chicago Regional, Eastern Colorado, Eastern Ohio-Western Pennsylvania, Eastern South Dakota, Georgia, Great Basin, Greater Kansas City, Greater Louisiana, Indiana, Iowa, Louisville-Lexington-Evansville, Michigan Upper Peninsula, Middle Atlantic, Nebraska-Western Iowa, New England, New Mexico-West Texas, New Orleans-Mississippi, New York-New Jersey, Ohio Valley, Paducah, Southern Illinois-Eastern Missouri, Southern Michigan, Southwest Plains, Southwestern Idaho-Eastern Oregon, Tennessee Valley, Texas, Upper Midwest, and Western Colorado; Group B: Southeastern Florida, Tampa Bay, and Upper Florida; Group C: Pacific Northwest. 2/ Price at 3.5 percent butterfat content for the second preceding month. 3/ Total weighted change in gross values of milk used to produce Cheddar cheese and butter/nonfat dry milk. 4/ Class III price for the second previous month minus the computed Class II price for the second previous month. If the computed Class II price was equal to or higher than the Class III price, there is no adjustment. 5/ This marketing area may not have had the same Class III price in a given month as other Group A markets. Consequently, the adjustment and Class II price may not always have been the same. 6/ Effective with April 1995 prices, a new methodology for determining Class II prices was instituted in all Federal milk orders with the exception of Paducah. Under the new provision, the Class II price is the basic formula price for the second preceding month plus a fixed differential of \$0.30. Paducah maintained the old pricing provision for April and May 1995 until adopting the new provision starting with the June 1995 price.

TABLE 24--FACTORS USED IN THE COMPUTATION OF CLASS III-A PRICES IN FEDERAL MILK ORDER MARKETS,
JANUARY 1995 TO DATE 1/

Month	Butterfat Differential	Nonfat Dry Milk Price 2/		Modified Yield Factor 5/		Class III-A Price 6/

July	0.071	1.0669	1.0431	8.63	8.62	10.61	10.40
August							
September							
October							
November							
December							

1/ This pricing provision is currently in effect in 27 marketing areas. See "Summary of Major Order Actions, December 1993" in FMOS-399 and table 2 in this report for the affected marketing areas. This price is applicable to producer milk used to produce nonfat dry milk.

2/ "Dairy Market News," AMS.

3/ This price series is used in the computation of the modified yield factor and Class III-A Prices in all but 3 of the 27 affected marketing areas. See 1/.

4/ This price series is used in the computation of the modified yield factor and Class III-A Prices in the western marketing areas. See 1/.

5/ 9 less (0.4 divided by the applicable nonfat dry milk price).

6/ (Butterfat differential times 35) plus [(applicable nonfat dry milk price less 12.5 cents) times the applicable modified yield factor].

7/ See 1/ to find the marketing areas that use this nonfat dry milk price series.

8/ New England, New York-New Jersey, and Middle Atlantic also use a seasonal adjustment in the computation of Class III-A prices.

TABLE 25--PRODUCER DELIVERIES OF MILK USED IN CLASS III-A BY HANDLERS REGULATED UNDER
FEDERAL ORDERS, BY REGION, JANUARY 1995 TO DATE

Region	January 1995	February 1995	March 1995	April 1995	May 1995	June 1995	July 1995

* Not in effect. 1/ Based on prices at test as reported in "Agricultural Prices," NASS; converted to a 3.5 percent test by using the butterfat differential specified in Federal milk orders for conversion of the blend prices that vary from 3.5 percent. 2/ Average price reported paid to producers for manufacturing grade milk f.o.b. plants in Minnesota-Wisconsin as reported by NASS. Effective with the May 1995 price, this price series was replaced by the Basic Formula Price. 3/ Effective with the May 1995 price, the Basic Formula Price replaced the Minnesota-Wisconsin (M-W) price series, which establishes minimum prices under all Federal milk orders. The Basic Formula Price is the base month M-W price updated with a product price formula. See "Summary of Federal milk order actions, May 1995" on page 54. 4/ "Agricultural Prices," NASS. 5/ Animals sold for dairy herd replacement only. 6/ Figures are published for January, April, July, and October only. 7/ Mid-month price. 8/ Includes beef cows and cull dairy cows sold for slaughter, but not dairy cows for herd replacement. 9/ Pounds of 16 percent mixed dairy feed equal in value to 1 pound of milk sold to plants. Since prices paid for feed items will now be reported annually in April, rather than quarterly, price ratios are calculated using a different procedure. The new methodology utilizes major raw feed component prices from the NASS agricultural commodity prices published monthly.

^{1/} "Milk Production," NASS. Monthly milk production is collected only for 22 selected States. NASS collects total U.S. production on a quarterly basis only. NASS estimates total U.S. monthly production based on the pattern in production in the 22 survey States. ^{2/} "Dairy Products," NASS. Frozen products include ice cream, lowfat ice cream, sherbet, frozen yogurt, and other frozen products. ^{3/} The sum of the monthly figures may not add up to the total due to rounding.

Summary of Federal Milk Order Actions, March 1995 (Errata)

(The following amendment should have read.)

Amendment:

New England, et al - March 3 (60 FR 6606, 2/2/95). This action adopts a formula to price Class II milk under all Federal milk orders. The Class II milk price is the basic formula price for the second preceding month plus a fixed differential of \$0.30. The Class II price, like the Class I price, will be announced on or before the fifth day of the preceding month. This action also eliminates the "add-back" feature of Class II milk pricing where the difference between the Class II price and the Class III price is added to the subsequent month's Class II price whenever the Class II price for the month is below the Class III price.

Summary of Federal Milk Order Actions, May 1995

Amendment:

New England, et al - June 1 (60 FR 18952, 4/14/95). This action implements the base month Minnesota-Wisconsin price updated with a butter/powder/cheese formula as the replacement for the Minnesota-Wisconsin price, series which establishes minimum prices for milk under all Federal milk orders.

Summary of Federal Milk Order Actions, June 1995

There were no final actions effective during this period.
